*Autumn / Winter*

2025/26

This collection is dedicated to soul of winter, as a reminder that beauty often comes in a simplest forms, and yet full of quiet beauty.

When we create it is not only about clothes, it is also about story behind the final product, something far more profound.

This time we searched for places and spaces where clear sky meets horizon, icy layers, virgin snow, deep winter lakes, crisp and sharp moments. Winter days and nights, white, black and nuances of blue.

Each piece found its place in that magical winter land to bring you peace and tranquility like mythical allure of glaciers—an inspiring combination of raw natural power and serene distant beauty.

But observe carefully as we focused more deeply on texture, pattern form and contrast. Wearing this collection will bring you also a sense of adventure, connection with something timeless yet sensitive.

With every page you will see something unique and elegant, like delicate masterpieces - snow crystals.
